PROFESSIONAL SUMMARY

Full Stack Developer with 12+ years of broad professional experience and 2.5 years of hands-on web development building responsive, scalable applications using HTML, CSS, JavaScript, React, and TypeScript. Combines strong UX/UI design sense, responsive layout skills (Tailwind, typography), and systems-thinking honed in high -pressure, people- focused roles to deliver clean, maintainable code and efficient team workflows. Seeks to apply engineering rigor and collaborative problem-solving to build user- centered products and scale front-end architecture.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, HTML, CSS
Frameworks & Technologies: React, Vue.js, Nuxt.js, Next.js, Express.js, Node.js, Vite, REST APIs, OpenAI API
Databases: PostgreSQL, MySQL, SQL, NoSQL, MongoDB
Development Tools: Git, GitHub, Postman, npm, VS Code
DevOps & Cloud: Docker, Kubernetes, Netlify
Frontend & UI/UX: Tailwind CSS, Responsive Design, UI Design, UX Design, Typography, Figma
AI & Automation: Prompt Engineering, AI Project Deployment

PROFESSIONAL EXPERIENCE

Frontend Developer(Founding Team) *December 2025 – Present*
Pelicora(Early Stage Startup)

- Collaborating as a founding team member to build a California-based software agency focused on modern web applications, MVPs, and custom solutions for local clients.
- Leading frontend development initiatives using Vue.js and Nuxt, translating product requirements into responsive, user- friendly interfaces.
- Partnering directly with the backend developer to design and integrate full-stack features, ensuring performance, scalability, and clean API communication.
- Participating in strategic planning, technical decision-making, and product scoping through regular video calls and collaborative workflows.
- Contributing to a client- first development model emphasizing clear communication, local collaboration, and rapid iteration without offshore dependencies.

LEAD RECOVERY COACH | SUBSTANCE ABUSE DIRECT CARE STAFF *November 2017 – March 2024*
OCTLC Inc - Sustain Recovery, Anaheim Hills

- Team Leadership & Mentoring: Managed a multi-disciplinary team in a high-pressure environment, serving as the de facto House Manager and primary point of contact for staff training and operational support.
- Process Optimization: Streamlined daily reporting and communication protocols, significantly improving data accuracy and hand-off efficiency between shifts.
- Incident Management: Led rapid-response interventions during high-acuity crises, demonstrating the ability to think logically and maintain stability under extreme pressure.
- Workflow Coordination: Orchestrated complex daily scheduling and resource allocation for a team of staff and 6+ clients to ensure 100% compliance with safety and regulatory standards.
- Quality Assurance & Documentation: Maintained rigorous, audit-ready documentation and progress reports, ensuring all work met strict state and federal compliance requirements (HIPAA).

Independent Distributor *January 2012 – September 2022*
Vemma - Remote

- Growth & Scaling: Scaled a regional sales organization to "Gold" status, managing a high-performing team and implementing strategies that drove the business toward top-tier performance milestones.
- Performance Mentorship: Recruited and onboarded new team members, developing a standardized training curriculum to improve sales conversion rates and operational consistency.
- Stakeholder Presentation: Developed and delivered technical product presentations and motivational seminars to large groups, honing the ability to communicate complex value propositions to diverse audiences
- Strategic Planning: Managed a self-starting business unit, utilizing data-driven goal setting and time-management frameworks to track progress toward high-level performance incentives.

EDUCATION

Mount San Antonio College - Walnut, CA - Undergraduate *2008 – 2015*
CodeAcademy - Full Stack Developer Path *2023 – 2024*
Scrimba - AI Engineering Path *2024 – 2025*
Boot.dev - Back-End Developer Path *2025 – Present*
